RSPCA PETITION TO END THE USE OF WILD ANIMALS IN CIRCUSES

City of Cockburn Council

We the undersigned are totally opposed to the use of wild animals in circuses. Wild animals are kept most of the time in close confinement, in abnormal social groups and are continually being transported - all acknowledged causes of stress. They perform acts which do not come naturally to them. We wish to see an end to this unnecessary suffering and therefore we will not visit any circus which includes wild animal acts in its programs. Over 35 Councils in Australia have already banned circuses with wild animals from their land and we are petitioning for more to join the campaign.
